Italy, a land of rich history, cultural heritage, and breathtaking landscapes, is known for the diversity and uniqueness found in each of its regions. One such region that has captured the hearts of many is Veneto. Nestled in the northeastern part of Italy, Veneto comprises a stunning blend of art cities, charming countryside, and coastal beauty. However, beyond its picturesque landscapes lies a captivating story of resilience, identity, and a people who once formed a nation. This article is a journey into the soul of Cuor Di Veneto - the Heart of Veneto, unveiling the anatomy of a people who flourished as a nation.

The Birth of a Nation

Veneto's history dates back to ancient times when various tribes and civilizations inhabited the region. However, it was during the height of the Roman Empire that Venetia et Histria emerged as a significant territorial division. The Veneti people played a crucial role in shaping the region's destiny, and their distinct identity continues to resonate to this day.

As the Roman Empire declined, so did its control over the region. Veneto experienced waves of invasions from various conquerors such as the Ostrogoths, Lombards, Franks, Byzantines, and finally, the powerful Republic of Venice. The rise of Venice marked a pivotal era for Veneto, with the city-state flourishing as a trade and naval power. Known as "La Serenissima," Venice became the jewel of the Mediterranean.

Per capire davvero un luogo bisognerebbe esserci nati. Stefano Lorenzetto è veneto, figlio orgoglioso di un popolo che fu per i.100 anni nazione, e in questo libro ci racconta la controversa regione d'Italia attraverso le storie dei suoi poliedrici abitanti, eredi della repubblica più longeva che si ricordi sulla faccia della Terra. Partendo dalla sua esperienza personale di povertà e fatica, l'autore smonta molti stereotipi giornalistici, per arrivare alla e che non l'Italia, bensì il Veneto, è una repubblica fondata sul lavoro: "Il lavoro non è nemmeno un dovere, per i veneti: è il senso stesso del vivere". I veneti che mugugnano ma sgobbano, che protestano contro la rapacità dello Stato ma pagano le tasse, che sognano l'indipendenza ma non si appellano mai a vallate in armi, che si mostrano sospettosi con gli stranieri ma ne accolgono più di qualsiasi altra regione d'Italia dopo la Lombardia, che non sono ancora pronti a fondere il bianco col nero ma continuano a mandare i missionari a morire in Africa sulle orme di monsignor Daniele Comboni, che sembrano aridi ma vantano un'impressionante fioritura di opere buone, che tirano su capannoni ma si struggono di nostalgia per le ville palladiane, hanno ancora quest'enorme fortuna di ricordare da quali sacrifici è scaturita la loro ricchezza e di vivere come se tutto fosse in prestito, come se l'incantesimo potesse rompersi da un momento all'altro.
