As the title says, Vintage Works is at its heart a sketchbook, my sketchbook of vintage cars that I find inspiring. It began several years ago as a fun project when I started sketching some vintage cars for inspiration. Before going on, perhaps I should take a moment to say what I mean by vintage. Some car enthusiasts may reserve this category for cars from 1919 - 1930 and instead may categorize the cars within as classic cars. For me, these vintage cars reflect the Oxford Dictionary definition: “Denoting something from the past of high quality, especially something representing the best of its kind.” I also wanted to express that vintage car design still works to inspire, refresh, re-inform, or renew current design perspectives. Vintage works – get it?
