Every year after harvest the weakest are removed from the encampment. None of them are ever seen or heard from again.

Trinity's only hope of escape lies in the forest. She's not afraid of the creatures that live there. There's nothing bigger than foxes in those woods, except this time something is different.

This time she's hunted from land and sea by predators that should only exist in legends.

Surrounded by three enemies. Surrender is her only option, but which one should she choose?

A captivating dystopian read filled with human-animal hybrids and creatures you've never even imagined.

Interview with the AuthorQ. – So, why should someone read the Lake of Sins series?

Well, because it's great (smiles) and you can get the ebook for FREE. However, if you're looking for your typical dystopian, post-apocalyptic, survival thriller then you should look somewhere else. This story has been described as a one of a kind world created in a unique dystopian society.

The characters in the series are human-animal hybrids—genetic mutations or evil experiments, is yet to be revealed. It's an entire new species of characters who don't fit in the typical genre categories of vampire, werewolf, witch, fairies or even angels and demons. The world of the Lake of Sins is segregated by class with the humans ruling supreme.

In book one, *Escape*, Trinity, a sixteen year old Producer (the lowest of the classes), unwittingly sets off a collision between the classes when she flees into the forest to discover the fate of the teenagers who are removed from camp every year after harvest. Some say they are taken to another camp to keep bloodlines strong. Others say they are tortured. No one knows and Trinity is determined to find out, but what she doesn't expect is to be hunted by mutant creatures and predators long thought to be extinct.

The books are fast paced with adventure and mutated creatures around every corner. There are legends that are truth and societal truths that are well guarded lies. All-in-all, it's a unique and exciting read and you should give it a try. I think you'll love it.

The Chimera Chronicles series also takes place in the world of the Lake of Sins. These stories are prequels, explaining how some of the characters, who you meet in the Lake of Sins series, became monsters.

Q. – Who should read the Lake of Sins series?

Although there's a strong, female lead in Lake of Sins, the audience for both series is broad. I have fans (male and female) aged ten through eighty. Anyone who likes gory thrillers that are dark, a little disturbing and packed with action will enjoy these books.

However, a word of caution is in order. These books are not for the squeamish. Some scenes are bloody and violent almost falling into the horror genre, but the interactions between the characters are funny, poignant and loving (and a love triangle develops as the stories progress). Still, I wouldn't recommend these books to anyone under thirteen without the parents reading the books first.
